

# ON THE SURFACE, YOUR COATING SYSTEM MAY SEEM ADEQUATE...

MANUFACTURE PART

THREE DAY WIP INVENTORY

Thermadep<sup>SM</sup> does its part for profitability. It can eliminate external costs with an in-house, on-line coating. There are no transportation charges. You can improve profit margins and gain a competitive edge.

DELIVERY TO COATINGS JOBBER

Thermadep<sup>SM</sup> does its part for productivity. It can reduce work-in-process time by avoiding the turnaround requirements of a jobber. You won't be subject to delays beyond your control. And you can maintain a more efficient inventory.

TWO MORE DAYS AT COATINGS JOBBER

Thermadep<sup>SM</sup> does its part for workers and the environment. It can help you produce low/no VOC coatings. Your workers function in a more pleasant environment, and you have the satisfaction of complying with today's environmental regulations.

POTENTIAL USE OF HIGH VOC COATINGS

Thermadep<sup>SM</sup> does its part for YOU. It can help you design a finished coating to provide corrosion resistance, ductility, lubricity, wear resistance and surface texture properties in a variety of colors.

STORED ANOTHER DAY AT THE COATINGS JOBBER

## Thermadep<sup>SM</sup>
